RAHUL AND EVMS ✓

Rahul has made it a habit to speak ill of anything if it relates to BJP and its electoral victories during his foreign trips. The sum and substance of his allegations every time is that BJP could win elections through the 'collusion and abetment of Election Commission and EVMs. However the LoP has not dared to prove "the guilt of nepotism of EVMs in favour of BJP" either himself or by the proxies appointed by him though the ECI had offered several opportunities to the Doubting Thomases in the INDIA block to prove his charges. On the other hand Kartik Chidambaram had categorically asserted that Congress lost many elections only because people did not vote for it implying that there was 0% scope for the India made EVMs to be manipulated and tampered with to show a result only in favour of BJP. Rahul also has no answer as to how Congress could win in Telangana, Karnataka and Himachal Pradesh when the same EVMs were used. As long as there is none to counter him Rahul will continue to adore himself as the most brilliant and strongest opposition leader in the India's history.
